Theo Nicole Lorenz : Fat Ladies in Spaaaaace: a body-positive coloring book before purchasing it in order to gage whether or not it would be worth my time, and all praised Fat Ladies in Spaaaaace: a body-positive coloring book:

6 of 6 people found the following review helpful. Love this!!!By kylial absolutely love this one, I wish there were more coloring books out there that looked like this one. My only complaint is that aren't more pictures to color!2 of 2 people found the following review helpful. Whimsical But Not Totally As AdvertisedBy thirtdtwinNot exactly as advertised, as a lot of the pictures are just a lady smiling with no space background- if you're comfortable doing some of your drawing there is enough blank space to put them in any setting you want though. Colored pencils only- the paper is too thin for markers; and don't press too hard or do too many layers with your pencils or the paper will dent and shred somewhat.7 of 7 people found the following review helpful. Two StarsBy BarbaraThe pictures inside are nowhere near as cool as the cover.

There's a whole universe of body types out there, and they all deserve to be represented. This coloring book features eighteen fat scifi heroines doing what they do best: trekking across the time and space, blasting off into adventure, and saving the day.
