Kirby CustomerAnother great reference/ history work by Gerard Paloque. Not to be missed by the modeler or the WWII and Aviation Historian! Beautiful photos and color profiles to illustrate all the groups and wings of the 8th USAAF in Europe from 1942-45. I cannot find any fault with any of these great entries in the Air Stories series from France. Perfectly translated and fully captioned in English. can help you add these books to your collection...if you are interested enough to read this far, you need to just go on and buy it! And see the other volumes in the series.3 of 3 people found the following review helpful. As a builder of plastic models I will make good use of it when researching a plane I'm going to build.0 of 0 people found the following review helpful. Great for modelersBy

MarkNReally interesting and colorful presentation of 8th USAAF markings and aircraft. Great for modelers.

This book is dedicated to all fighter groups of the 8th Air Force based in Britain from 1943 to 1945, and offers detailed profiles of their equipment: Spitfire, P-38, P-47 and P-51 with many color illustrations, highlighting the special detailing and badges with specific markings. A valuable tool for all aviation modelers.

About the AuthorGerard Paloque, former crew member of the Air Force, specializes in profiles of aerial fighters of all times and is the author of numerous books published by Histoire Collections (Patrouilles aeriennes, la 5th Air Force, F4 Phantom...).
