**Jupiter Kids : Figure It Out!: Geometric Coloring Book (Geometric Shapes and Art Book Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Figure It Out!: Geometric Coloring Book (Geometric Shapes and Art Book Series):

1 of 1 people found the following review helpful. No print linkBy Florida KayakerFigure it Out is a Jupiter Kids book and all of the Jupiter Kids Kindle coloring books seem to the same. You get 14 very simple designs that you cannot color but are meant to be a preview of the real book. You also get a link to download the images from 12 other books. These are the same books that you get when you purchase a Kindle coloring book from Speedy Publishing.Fortunately the Jupiter Kids books do tend to always be free. However, once you have downloaded one book and access the download for the other 12 books, I see no reason to purchase any other Jupiter Kids book.1 of 1 people found the following review helpful. I like that. I recently got into coloringBy SilverdogThis one is cute! Unlike some other Kindle coloring books, this one has a link to download and print these on your own. I like that. coloring. Its something my son and I can do together while we are at the cabin relaxing. My son is only 6 so he can't color these very well but its an activity he and I can do together and share our results with one another. Disclaimer - I received this ebook for free in exchange for my honest, unbiased, and fair review. In no way has this influenced my review. I rely on reviews just as much as you do and detest fake five star reviews. I very much appreciate reviewers who take the time to provide their honest and unbiased reviews and, for that, I am extremely grateful to them. When I need or would like particular products, I take the time to research those products as I do quite a lot of online shopping. I also take the time to test every product, whether received for free, at a discount, or for full sale price, to find out if the item holds true to its claim. If you found my review to be helpful in any way, then I trust that I have provided the necessary details to make your buying decision an informative and positive one. Should you have any questions, please feel free to ask away and hopefully I can provide an answer. Thank you for taking the time to read my review; it is very much appreciated. 0 of 0 people found the following review helpful. They were nice, but perhaps a bit simplistic for adults who ... By T K MI got the ebook sample version of this book so that is what my review is on. There were cute little mandalas inside (about 14 of them). They were nice, but perhaps a bit simplistic for adults who want to color. They seem suitable for young children's ability though so if you have an elementary kid who likes coloring mandalas, go for it! I was mostly disappointed that the pictures were not at all like the cover photo, but the description of the product was correct so I gave it 4 instead of 3 stars. Perhaps the full length print book has something more complex, but I chose not to buy that. So if your little one wants a few cute shapes to color, go for it. Otherwise, choose a different coloring book. \*This review is based on my familys fair, honest, and unbiased review of this product. We are a family of 3 with a small child and I only buy products that we will actual use. I write these reviews with input from whichever family member used the product as well as my personal experience with it. \* I received this product for free or at a discounted price in exchange for an honest review\* I have not been asked to leave a 5-star review. The stars I have given this item reflect my own experience. \* I do not work for this company nor do I represent it in any way. \* Every review given by me is given the same amount of honesty as though I purchased this item at full retail price. \* Feel free to ask any questions! MY PERSONAL CRITERIA FOR RATINGS (STARS): 5 stars ~ Really awesome! It met or exceeded my personal expectations and worked well for me and/or my family. I am very happy with the purchase! 4 stars ~ This is a good product. Something about it did not work as expected for myself or my family but could work well for yours. Details will be in the review as to why it did not receive 5 stars. 3 stars ~ This product is ok. It is functional for what it claims to be but it did not meet my expectations and there are better products at similar prices readily available. I would not purchase this again. 2 stars ~ This is not a good product. It failed to meet even basic expectations, but might be acceptable in a pinch if nothing else was available. Choose something else if you can. 1 star ~ Terrible product. It both failed expectations and made things worse than not having it all together. I would never recommend anybody getting this.
