**Cheralyn Darcey : Flower Reading Cards: Discover the Language of Nature (Reading Card Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Flower Reading Cards: Discover the Language of Nature (Reading Card Series):

1 of 1 people found the following review helpful. +Beautiful images, +uplifting messages, -poor cardstock, -semi useful guidebook. By Customer The images are beautiful and uplifting. However, the cardstock quality is really quite

poor, the edges are rough and straight out of the package they were chipping. The guidebook is useful -to an extent. Most of the information given about the flower doesn't really tie into the keyword presented. The best options are to either memorize the book and ignore the keyword, or vice versa. Otherwise, you end up with a load of information that seems unrelated. Lovely images and a very sweet personality for a deck.

Flower Reading Cards is an excellent introduction to flower reading as well as an entry level botanical reference. If you have ever wondered what a flower means or why anyone has ever attributed symbolic meaning to a plant then this card set will answer those questions. Floramancy is a way of connecting with the Language of Nature, and is the foundation of this deck of cards and guidebook. The ancient art of reading flowers and plants for divination and for healing insight, is gained through understanding these meanings so that you may wish them on others or bring that energy into your own world. The box set consists of 36 cards and a 96 page full color booklet of the worlds favorite flowers. It features unique flower spreads for readings and a special card of the day instruction that will delight those that love beautiful oracle tools and traditional artwork.

About the Author Cheralyn Darcey is an environmental artist and Flower Reader and the author and illustrator of the Australian Wildflower Reading Cards and the Flower Reading Cards (Rockpool Publishing). Cheralyn has a lifelong connection with the study of the relationship between people and plants. Though her work is many faceted it is through her explorations that she has slowly rekindled the ancient tradition of Flower Reading, (Floramancy). As a teacher of creative arts with a focus on environmental arts, she has had a 30-year commitment to sharing her passion for Nature based traditions and Ethnobotany. Cheralyn's art has featured in workshops, exhibitions, art prizes and publications internationally. Working in Waste to Art Mediums and Mixed Media, Cheralyn finds that creating works that encourage others to look a little deeper at our existing resources and in turn encourages greater care and understanding of Earth and ourselves. She was a selected Environmental Artist in Residence at the International Conference of Eco Ideas in 2011 and has also presented at the Australian Museum, North Head Environment Sanctuary, where she was also Artist in Residence during the Year of Biodiversity. Cheralyn has a long history of association with the Manly Environment Centre, supporting their projects and creating eco art to highlight current initiatives. She has created major Artworks for the Cancer Council, Manly Festival of Surf and The Royal Australian Navy.
