**Ariella Chezar : Flowers for the Table: Arrangements and Bouquets for All Seasons** before purchasing it in order to gage whether or not it would be worth my time, and all praised Flowers for the Table: Arrangements and Bouquets for All Seasons:

0 of 0 people found the following review helpful. Excellent ReadingBy Patsy O. FosterBook has excellent information. I purchased two, one for a friend and one for myself. Both copies are in excellent condition and this book is out-of-print. I was very happy to find it. Great book for flower freaks!0 of 0 people found the following review helpful. Flowers FlowersBy annieoakleyLove this very pretty book with lots of ideas and pictures to inspire me to create my own stellar arrangements.0 of 1 people found the following review helpful. my favorite style of floral designBy Robert WarcholaAriella Chezar designs flowers as they should be designed. Her designs allow the flower to do what it does best... just be beautiful in an ecologicaly sound way. Most of Ariell's work contains no foam or any of that foney stuff. I find that in my event floral business the brides are asking for "greener" floral designs. This is one of the best ways to achieve that "greener" goal. Floral design OLD SCHOOL! Going back to basics in gorgeous arrangements! None of that formula arranging we were all subjected to by the big box floral designers.

Filled with lush seasonal arrangements, Flowers for the Table is the perfect guide to creating a gorgeous centerpiece for any celebration or gathering. What makes floral designer Ariella Chezars work so distinctive is her utterly

contemporary approach. In the 24 stunning arrangements included, she demonstrates how to fashion centerpieces out of flowers, branches, fruits, fabrics, and unusual flea market treasures. A brunch tabletop is crowned with delicate white bouquets of clematis, ranunculus, lilies, and anemones. An abundance of roses, amaryllis, and berries festooned with ribbons sets the stage for an intimate dinner party. And the hot pinks, reds, and yellows of winter poppies in silk-swathed vases warm the room for a winter cocktail party. From sleek modern arrangements to more traditional bouquets, there's something for every sensibility. Full-color photographs, an introduction to each season and the flowers and greenery available, a glossary for each section, and countless tips make this the ultimate guide to creating magnificent table arrangements.

.com These are not your mother's flower arrangements. Ariella Chezar throws out old rules about greenery and focus points and presents us with a wealth of new gifts to decorate our homes. Her ideas incorporate a few classics like roses and peonies, but also make use of grapes, persimmons, olive branches, and Asian eggplants; what they all have in common is a lush beauty and sense of ripeness that add a feeling of real bounty to the rooms they adorn. After a short introduction covering general techniques and container recommendations, *Flowers for the Table* takes you through the seasons. Spring is surprisingly sophisticated, rather than more traditionally pastel, featuring unusual checkered lilies and vibrant ranunculus. Summer brings a stunning "tomato feast," with tomatoes of all sorts twining their vines with tiny red roses. Fall lights up with golden calla lilies and orange peppers, while winter charms with succulents and kumquats. Each section comes to a close with a short glossary of the materials used, helpful if you're unfamiliar with such items as Chinese lanterns or euphorbia. Containing a mellow mix of stunning photography and straightforward suggestion, *Flowers for the Table* will give you both inspiration and specific direction whether you're planning a wedding or just looking to dazzle your dinner guests. --Jill Lightner

About the Author Ariella Chezar is a Bay Area-based floral designer. She has worked as a stylist for weddings, restaurants, and on numerous books, including *Tra Vigne Cookbook: Seasons in the California Wine Country* (0-8118-1986-8).
