I felt instantly transported into each maze as if I was in the picture myself. They are challenging enough to work the brain, but not too hard that one would grow frustrated and want to give up. I am so happy to own this collection and anticipate using it to relax and unwind regularly.7 of 7 people found the following review helpful. Cool artwork and fun mazesBy S. SinclairThis book is amazing. You can stare at the intricate details of each maze as you meander through it, looking for the path that leads to the exit... in fact, sometimes

I find myself just looking at the drawings while "wandering and exploring", instead of concentrating on finding my way through. The mazes vary from fairly easy to very challenging, and the themes / settings run the gamut from simple garden paths to ancient / fantasy settings, outer space, and everything in between. It's a very entertaining collection. 5 of 5 people found the following review helpful. Amazing!! By L.T. I am so happy that I discover this book. The illustrations are so mesmerizing. Completing the maze is nice but the journey is priceless,

Sean Jackson has been illustrating and exploring mazes for his own enjoyment for more than 30 years. Inspired by art, architecture, and the natural world, his colorfully detailed mazes offer imaginative and meditative journeys through village streets, garden vistas, island habitats, castle grounds, scenic towns, and gravity-defying surreal situations each encouraging the mind to wander while following the paths. This large-format collection features nearly 50 absorbing single-page and full-spread mazes, sequenced with increasing complexity, and includes inventive bonuses such as mazes with two paths to follow and a maze that runs on the inside covers from front to back. Solutions are provided, but for those seeking mindful activity or hours of puzzle decoding entertainment, getting there will be half the fun.

"Illustrator Sean C. Jackson's nifty book is packed with dozens of fun and challenging maze designs of tiny isometric villages, dotted with buildings, trees, staircases, fountains, bridges, monuments, and more." -The Awesomer
