Not quite what I expected.By SusanOnce again I got suckered into thinking a book was going to give me more technique and less in the way of patterns. I had wanted to know more about actual conversion methods, and this book didn't quite hit my mark. However, for a novice or intermediate crafter, I think this

book would be okay.

Each of these crochet projects started with a favorite knit pattern stitch, from which the designer developed the same look using her crochet hook. This is crochet with the look and feel of knitting!
