MartinezI bought this book because our children loved it; and our daughter-in-law wanted a book from our son's childhood for their first baby. It was used, but still in pretty good condition and in a lot better condition than the one we had saved for so many years. I know our grandson will enjoy this as much as his daddy did!0 of 0 people found the following review helpful. Ordered this as a memory for my 41 year old ...By DHOrdered this as a memory for my 41 year old. I used to read this to him over and over when he was a small child. I plan to give it to him for Christmas.0 of 0 people found the following review helpful. From days long agoBy Terry GirardotThis was my daughter's favorite book when she was little. She's 47 now, and the book is on her mantle.
