The art of handcrafting impressive doll accessories using 7-count plastic canvas and worsted-weight yarn is shown in

detail in this guide to creating tiny furniture. The manual projects, which include a rocking chair, a car seat, a cradle, a stroller, and a high chair, make great gifts for the advanced crafter or doll-enthusiast loved ones. Instructions for making each piece of furniture in two sizes to accommodate 5- and 10-inch dolls accompany illustrative photographs, charts, and diagrams. Crafters can use different colors to customize projects and make every set of accessories unique.
