Kumiko Nakayama-Geraerts : Furoshiki: The Art of Wrapping with Fabric before purchasing it in order to gauge whether or not it would be worth my time, and all praised Furoshiki: The Art of Wrapping with Fabric:

6 of 6 people found the following review helpful. gratefully purchased this book from an re-seller!By CustomerThis is a FUN book! It repeats what one can find in other books but also has folds that I have not seen in other books. Its photos and diagrams are clear. It has a basic fold and then interesting variations. It rates each project shown on three criteria: challenge of the fold, type of suggested fabric, and size of fabric needed. It's amazing what a difference that information makes. For the neophyte, it can be very confusing to struggle with furoshiki, not realizing that the wrong type of fabric is being used, or the furoshiki is the wrong size. This book also tells how to make your own, and gives

design ideas. proper did not have the book in stock so I purchased an ex-library copy from an re-seller. This is an inspiring book and will be worth your \$20 if you can find a copy. Some sellers are asking very high prices. So FYI - original USA cover price was \$12.95. (Canada \$14.95, 7.99)0 of 0 people found the following review helpful. Two StarsBy GordieNot a lot of information. Hard to execute.0 of 0 people found the following review helpful. Five StarsBy HachiVery good book and easy to follow pictures.

Furoshiki is a centuries-old Japanese tradition of wrapping objects in a square piece of cloth. Originally used by people to transport necessities to and from public baths, merchants adapted the practice to carry, protect, and gift-wrap their products. With the onset of plastic bags, however, this beautiful custom diminished. Luckily, today's eco-friendly movement has stirred interest in furoshiki once again. This book will teach you the four basic knots and various folding methods used to create handbags, backpacks, shopping bags, and bottle bags for objects of varying shapes and sizes. Traditional embroidery designs are included so you can customize each of your furoshiki and bring beauty, style, and environmental consciousness to your life.

About the AuthorKumiko Nakayama-Geraerts was born in Japan and studied sewing and drawing at the Bunka Fashion School in Tokyo. She later worked as a designer at a haute couture house until settling in France in 1989 to work for a luxury Italian fashion brand. Nakayama now works in the interior design field and designs fabrics. She has previously published four successful books in Japan
