**Interweave : FW Media Interweave Press, 25 Knitted Accessories to Wear and Share** before purchasing it in order to gage whether or not it would be worth my time, and all praised FW Media Interweave Press, 25 Knitted Accessories to Wear and Share:

0 of 0 people found the following review helpful. even though my gauge was on and I should have had good results, I did notBy Nancy LindquistI would have given this the full five stars, but I've never followed the pattern as written. I am constantly making my own tweaks to everything, and in some cases, even though my gauge was on and I should have had good results, I did not. The fault was not reading the entire pattern before knitting. Which means me. Some of the directions are not as clear as I would like, and so I should have been more prepared and sussed out the issues ahead of time and watched a video on that technique, rather than scrambling to figure it out, or substitute in a swatch

Too hard to use for projects.
