The instructions are clear and the techniques suggested quite professional. Many books use funky unprofessional techniques and materials--this one does not. I love the designs and while I would probably never copy them exactly I will use some of them as jumping off points for my own projects. 9 of 9 people found the following review helpful. Garden Mosaics By Pepper V. Great book for a beginner. Was looking for some ideas for yard art and have already made several. 2 of 2 people found the following review helpful. Garden Mosaics - Emma Biggs/Tessa Hunkin By glassylady I was very pleased with this book - I was especially excited with the "new" 3-D items and the instructions were great!!! I would definitely buy from these authors again!
