A practical and creative guide to the use of any garden's shady space's by one of England's most famous gardeners.

The New York Times said of her gardening memoir, *We Made a Garden*, "a gentle reminder that plants are only a small part of what a garden is. The good ones are autobiographies written in green." About the Author The late Margery Fish is one of England's most beloved gardening writers. She is the author of numerous gardening classics, including "Carefree Gardening," "Cottage Garden Flowers," and "We Made a Garden." Her books remains as relevant to gardeners today as they were when they were first published in the 1950s and 1960s.
