Dick Raymond : Gardening Know-How for the '90s: Vegetables and Herbs (Down-to-Earth Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Gardening Know-How for the '90s: Vegetables and Herbs (Down-to-Earth Book):

0 of 0 people found the following review helpful. perfect guideBy BenMy husband bought a book by the same author in the late 70's / early 80's and it's been his go-to resource for his ever-expanding gardens. The information is practical and unbelievably helpful to the new and the seasoned gardener, in both this book and the original. When our children grew up and started their own gardens, I was happy to find the original still in print so I could order a copy for each of them. I got them this updated version, too, knowing it would be excellent.0 of 0 people found the following review helpful. Great Book...By Dayna JamesOld book but one of the best out there...0 of 0 people found the following review helpful. Ok for the person who maintains a lawn.By JesseOk for the person who maintains a lawn. Jeff Ball (now deceided). Has contributed a great deal to the gardening community. He speaks from experience.
