Psychedelia Alchemist Adult Coloring Book - Manuscript One- 2016 A collection of psychedelic art from the artist ToneXzst. ToneXzst (TLL) has chosen some of his favorite artwork for people to escape the daily grind of life, or just to relax and drift off into their imagination. If one looks close enough, one can see that all things are psychedelic, even with out the use of mind altering drugs. A simple meditation can also be psychedelic, and ToneXzst hopes that people will take a similar trip while spending time within the pages of this book.

About the Author Tonexzst (TLL) is a native born American, that has pulled influences from almost every type of art. As a 4 year old, he can remember drawing hot rod cars and motorcycles for his father. At the age of 7, he was filling notebooks up with drawings of ninjas and selling them to his fellow classmates. In high school he was a little more refined by his Art Teacher Mrs. Leah and began to work on legit techniques. At This time he was musically influenced by Hip Hop, Grunge, New Wave , and Electronic Music. Also inspired by the Skateboarding Culture and 1990s Rave culture. After High school it seemed he found his subject of choice to be primarily the female form with psychedelic highlights. Now many years later he has compiled works from airbrushing, 3D models, graffiti, screen printing, computer graphics and tattooing. His favorite medium is now Oil Painting. Being an artist no matter what he has done for income has always haunted him, and felt now, the coloring book, is yet another attempt to share his creativity in a world where almost everyone considers themselves an artist.
