Claire Bryant : Redout Flowers Iron-on Transfer Patterns before purchasing it in order to gage whether or not it would be worth my time, and all praised Redout Flowers Iron-on Transfer Patterns:

Lovely designs for 42 traditional garden flowers adapted from 18th-century art. Patterns for tulips, roses, lilies, hydrangeas, and other popular blossoms vary in shapes and sizes as single blossoms, in sprays, for use as frames and borders, much more. Includes easy-to-follow, step-by-step directions for transferring patterns to flat, ink-absorbing surfaces.
