That may actually be true, but most of it is about Case and Remington. The book is well written and helpful identifying models. Unfortunately, it didn't help me find out anything about my Great-Grandfather's Camullus.1 of 1 people found the following review helpful. greatBy BRENDA WHITAKERMust have for knife collectors. Pays for itself with the info contained within. If you're not sure what you have in the way of knives or razors, this book will help educate you.0 of 0 people found the following review helpful. Good buyBy Barbara L. SueszWe were looking for this book as my husband collects knives and it helped fill in some history that is hard to find in one place.
