**Rosemary Verey : Scented Garden** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scented Garden:

0 of 0 people found the following review helpful. It was in great condition, thank you By SweetAndSaltyIt was in great condition, thank you. This is a lovely coffee table book with beautiful photographs. We have a large fragrant garden and I enjoy reading books written about fragrant gardens. I have quite a few and our coffee table is looking quite pretty! 0 of 0 people found the following review helpful. A good book to learn about scent - the soul of any garden. By Semiplenus A bit out of date (scientific names for many plants have changed) but solid advice on key plants for scent in the garden. Highly narrative style rather than an exhaustive encyclopedia of plant choices. The writing is a pleasure to read if a bit light on the options. The book is geared to gardeners in the climate of Britain, but much of the advice applies anywhere. A good book all in all. 0 of 0 people found the following review helpful. Five Stars By D. Hinkle Great book with lots of useful information. I bought the book to plant a bed of sweet smelling flowers.

A campaign on behalf of an almost forgotten pleasure of gardening--the pursuit of fragrance. Tells which plants to cultivate for crisp winter smells and for the sublime nosegays of summer in your home.

From the Inside Flap A campaign on behalf of an almost forgotten pleasure of gardening--the pursuit of fragrance. Tells which plants to cultivate for crisp winter smells and for the sublime nosegays of summer in your home.
