For me, this book touches on all the things I want to know. Design inspiration and technique are very important to me. I want to know the why as well as the what involved in the development of each piece. This book delivers. The designs are beautifully executed. The photography is excellent. I like the designer's honest approach to the more advanced designs. These will take time to make,but it will be worth it. How often do we hear that in this speedy world? I have not yet had the opportunity to knit anything in this book. I

fully intend to. But even if I never do, I will find this book a superb source of inspiration.4 of 4 people found the following review helpful. Gotta Have It!By H. Creative, original, very wearable.By Mary AnnCreative, modern, actually wearable. I want to knit all the women's sweaters, and resize the men's to my measurements, and then knit them, too. Mr. Kunnecke has a unique sense of design, you won't see these coming and going.
